Re: Water Right No. G2-30363

Dear Mr. Bird:

In response to your request, you are hereby granted an extension to begin construction for the reasons below:

- The project was delayed due to two consecutive years of unsuitable conditions for wet season evaluation associated with the permit process for a proposed community drain field and recent economic conditions.
- Further delays were encountered due to denial of the community drain field permit by the State Department of Health leading to plan modification and submittal of a new proposal to the Jefferson County Health Department.
- Additional time is needed for drain field approval from the County and for completion of the Planned Rural Residential Development (PRRD) permitting process.

The new deadline to submit your Construction Notice is January 1, 2017.

You may be eligible for additional permit extensions if you demonstrate continuous due diligence and good-faith efforts in development of this project.
